# CAPRINI & PELLERIN ARCHITECTES

Kevin Caprini and Jerry Pellerin, founders

---

Based on the French Riviera, Caprini & Pellerin Architectes is specialised in architecture and design for high-end residential and commercial projects. The practice was founded in 2008 by Kevin Caprini & Jerry Pellerin. The duo leads an international team of over twenty architects and designers. They provide a full range of services ranging from conceptual ideas to the implementation of architecture, interiors, landscaping, furniture design, antiques and art buying. Caprini & Pellerin deliver a warm and timeless vision of luxury, achieved through acute attention to detail, craftsmanship, high-quality materials and close collaboration with each client.

Villa Ketamine in Cannes comprises two stories of white concrete walls with a long stretch of full-length glass sliding doors that open the house to the panorama: incredible views of the Mediterranean Sea and the Lerins Islands. These full-length minimalist windows, whose panels slide entirely into the walls, were fitted on most of the South side and frame the views.

Skylines and an array of small square windows were strategically placed at the back all of which maximise the entry of natural light. The concrete walls and wooden decking create a strong identity and continuity with the interiors of this French Riviera location. A four-meter-long, curved cantilever shelters a portion of the terrace along which runs a swimming pool to mimic the blue sky and azure sea.

Inside, the raw concrete and additional selected materials such as oak, walnut, stone and granito blend harmoniously with the polished contemporary furniture. The architecture, timeless and simple, is a beautiful rendition of minimalism.
